

1. Product Description for a Smart Fitness Watch

Zero-shot Prompt

Prompt:

Write a professional product description for a Smart Fitness Watch. Include its features, benefits, and target users.

Output:

Stay active and connected with the Smart Fitness Watch. It features heart rate monitoring, sleep tracking, GPS, calorie tracking, and smartphone notifications. With its stylish design, water resistance, and long battery life, it is perfect for fitness enthusiasts, students, and professionals.

One-shot Prompt

Prompt:

Example:

Product: Wireless Earbuds

Description: Wireless earbuds with Bluetooth connectivity, premium sound quality, and long battery life.

Now write a similar product description for a Smart Fitness Watch.

Output:

The Smart Fitness Watch helps you monitor your health with heart rate tracking, sleep monitoring, and fitness modes. It also provides GPS, call notifications, and a long-lasting battery, making it ideal for everyday use.

Few-shot Prompt

Prompt:

Example 1:

Product: Wireless Earbuds

Description: Bluetooth earbuds with premium sound quality.

Example 2:

Product: Smart Speaker

Description: Voice-controlled speaker with excellent sound quality.

Now write a product description for a Smart Fitness Watch.

Output:

The Smart Fitness Watch is a lightweight wearable that tracks steps, calories, heart rate, and sleep. It also supports GPS, smartphone notifications, and multiple sports modes, making it a reliable companion for a healthy lifestyle.

2. Blog on "Applications of Artificial Intelligence in Healthcare"**Zero-shot Prompt****Prompt:**

Write a 200-word blog on "Applications of Artificial Intelligence in Healthcare."

Output:

Artificial Intelligence (AI) is transforming healthcare by improving diagnosis, treatment, and patient care. AI helps doctors detect diseases early, analyze medical images, monitor patients remotely, and recommend personalized treatments. It also supports medical research, reduces errors, and improves hospital management, making healthcare more efficient and accessible.

One-shot Prompt**Prompt:**

Example: Write a 200-word blog on "Applications of Artificial Intelligence in Education."

Now write a similar 200-word blog on "Applications of Artificial Intelligence in Healthcare."

Output:

AI is playing an important role in modern healthcare. It helps doctors analyze medical data, detect diseases, assist in surgeries, and monitor patients. AI also improves hospital management and supports medical research, resulting in better healthcare services.

Few-shot Prompt**Prompt:**

Example 1: Write a blog on AI in Education.

Example 2: Write a blog on AI in Agriculture.

Now write a blog on "Applications of Artificial Intelligence in Healthcare."

Output:

Artificial Intelligence improves healthcare by helping doctors diagnose diseases, monitor patients, and provide personalized treatment. It reduces medical errors, saves time, and supports research, making healthcare more reliable and efficient.

3. Article Summarization

Zero-shot Prompt

Prompt:

Summarize the following article in exactly 50 words.

Output:

Artificial Intelligence increases productivity by automating tasks, analyzing data, and improving decision-making. It helps organizations reduce costs, improve accuracy, and achieve better performance across different industries.

One-shot Prompt**Prompt:**

Example:

Article: AI improves education through personalized learning.

Summary: AI enhances education by providing personalized learning.

Now summarize the following article in exactly 50 words.

Output:

Artificial Intelligence enhances efficiency by automating repetitive tasks, improving decision-making, and analyzing large amounts of data. It benefits industries through greater accuracy and productivity.

Few-shot Prompt**Prompt:**

Example 1: Climate change affects agriculture. → Summary.

Example 2: Online education is becoming popular. → Summary.

Now summarize the following article in exactly 50 words.

Output:

AI supports organizations by automating work, analyzing information, and improving efficiency. It reduces errors, saves time, and helps achieve better business and industrial performance.

4. Professional Email Requesting Leave Due to Illness

Zero-shot Prompt

Prompt:

Write a professional email requesting leave due to illness.
